

Auto Pod

Automatic reserve paper roll dispenser

Range

Hand drying

Product Code

CAB POD AUT RSV

The Auto Pod is a no-touch reserve roll dispenser that has one of the largest paper capacities on the market. Thanks to its patented reserve roll loading system, a new roll can be loaded before the previous one has been fully used, thus making sure no paper is wasted. With its modern design, the Auto Pod is an excellent choice for an efficient and stylish hand drying, providing maximum hygiene to the end user.

Finishes available

Arctic White Designer Grey Chrome

Benefits

Hygiene and image

- Automatic paper delivery via capacitive sensing – no touch dispensing
- Single-use paper portion - the paper self presents enabling maximum hygiene
- Automatic paper follow-on feature for presenting paper in advance of the next operation
- Compact size and modern design

Reliability and durability

- CE marked to conform with the protection requirements of Council Directive 89/336/EEC relating to Radiated Emissions, Radiated Immunity and Electrostatic Discharge
- Self-supporting lid
- Minimum maintenance required

Freedom and control of consumables

- Changeable paper length switch – default 250mm & longer alternative 280mm (+/- 5mm)
- Changeable paper presentation mode switch – no-touch hand activated paper dispense mode & paper always present mode (when you tear a piece of paper the cabinet automatically dispenses another piece)
- Automatic reserve feature – Once the roll reaches 9.5cm it can be put into the reserve position and a new roll loaded, the new roll automatically loads itself once the first roll has depleted.

Ease of service

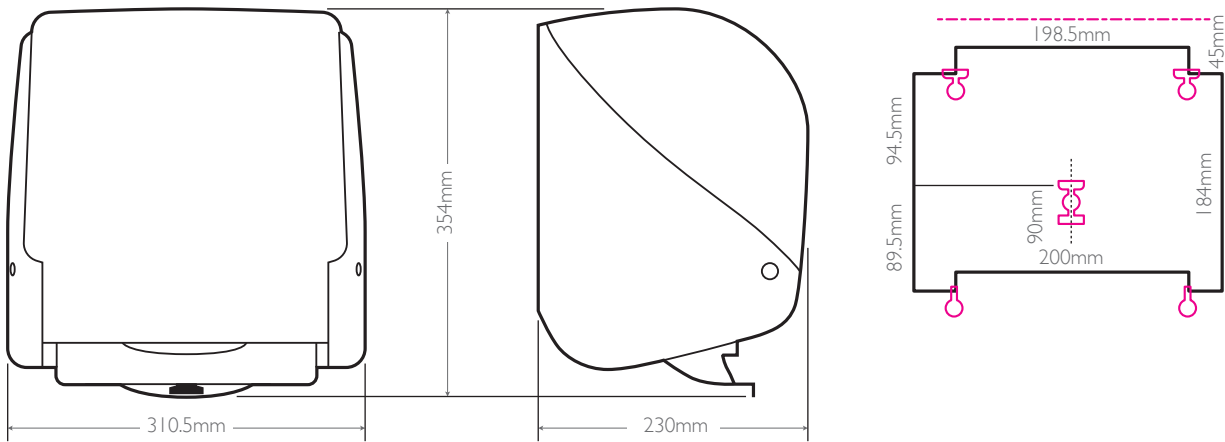

- Sliding adjustable paper locating arms for easy paper width adjustment, no tools required
- Transparent ABS cover for easy paper roll level indication
- Left / right hand lock with one security key for the whole Kennedy range
