

Baby changing station

Wall mounted horizontal nappy changing unit

Range

Baby hygiene

Product Code

BAB CHA HOR

The baby changing unit is designed for safe and hygienic nappy changing in public washroom areas, whilst providing reliable strength and years of service. Bag hooks located on both ends of the changing table allow the child's nappy bag to be securely hung for easy access, while the second hook is available for a handbag, shopping bag, jacket etc.

Finishes available

● Grey

Benefits

Reliability & durability

- Robust high-density polyethylene construction
- Internal metal skeleton, cannot be dismantled
- Moulded in instruction, no label that can be vandalised or removed
- Developed for the most demanding markets, including the USA
- Heavy duty gas strut for long life

Maximum safety

- Smooth, concave shelf design prevents child from rolling around
- Strong safety strap provides an additional level of child security
- Meets or exceeds ASTM safety requirements
- ADA compliant when properly installed

Ease of use

- Bag hooks on either end of the table
- One-handed opening and closing
- Folds to the wall when not in use
- Universal instruction graphics and safety messages in six languages and Braille

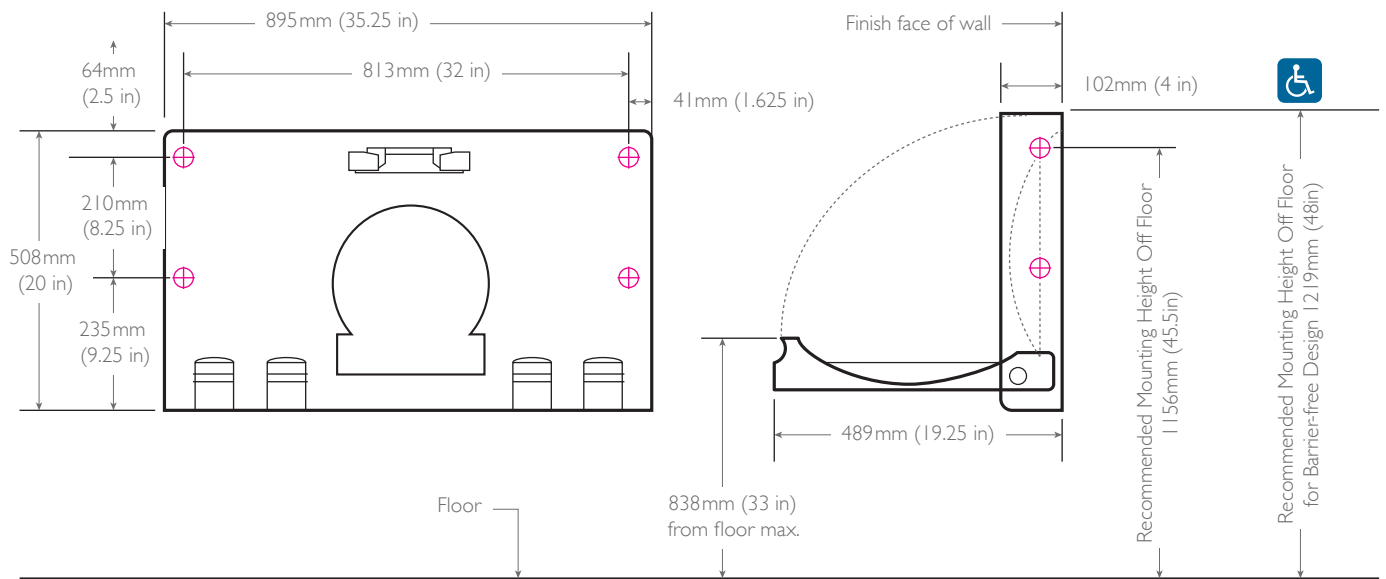

Maximum hygiene

- Microban antimicrobial protection inhibits the growth of odour causing bacteria
- Easy clean crevice-free design
- Built-in liner dispenser

INTEGRATED HYGIENE SOLUTIONS
