

# Medina

Pedal operated medical bin

## Range

Medical waste bin

## Product Code

NAP BIN BAM YEL

The Medina is a 50-litre pedal operated bin designed for medical waste disposal.

It has a large waste holding capacity while remaining compact, modern and attractive in design. It is pedal operated to ensure maximum hygiene and a modesty flap ensures waste is not visible to the end user while the unit's large centrally positioned aperture makes waste disposal easy.

The Medina incorporates a patent applied removable hygienic cover to aid serviceability. The hygienic cover protects the inside of the unit from soiling and can be removed for easy cleaning.

Germicidal powder sachets can be attached inside the bin. They inhibit microbial growth, prevent offensive odour and make the end user experience more pleasant.

## Finishes available

 Yellow

## Benefits
